AUTHOR AND SUBJECT INDEX

Volume 15, Numbers 1-2, 1982

Abstracts 8256-9222

Entries relate only to the main subject(s) of an article; for a complete guide to structures and finds the CBA's *Archaeological Bibliography* should be consulted.

Place-names are indexed under their own initial letter (Ardmore under A) with a cross-reference from the county (region for Scotland). References from 'old counties' (pre-1974 boundaries) are made where necessary.

The order of sub-entries in the index is by chronological divisions (with any general or multi-period entries given first) *except* where alphabetical order is more appropriate. References to footnotes in abstracts are made thus: 7369n. The practice of using an asterisk (*) to denote part-authorship has been discontinued.

- A2 road (Kent) 8478
